

Eco Nitrile Foam Glove

WORX100

GENERAL DESCRIPTION

The WORX range from Force360 have been designed and developed in Australia to offer a multi purpose low cost product for those high volume work environments. The WORX100 Nitrile Foam grip provides a reliable and assured grip for multiple applications.

KEY TECHNOLOGY

ADDITIONAL FEATURES

- ▶ Foam Nitrile coating provides excellent wet, dry and oil grip
- ▶ The Polyester liner provides a reliable and comfortable cost effective alternative to nylon spandex
- ▶ The knitted 13 gauge liner allows good dexterity for mid to heavy handling duties

CONSTRUCTION MATERIALS

- ▶ 52% Polyester
- ▶ 11% rubber
- ▶ 37% NBR

STANDARDS & CERTIFICATION

Many gloves in the market today claim compliance to EN388 and show a mechanical score symbol. However with many glove brands sourcing from multiple factories, inconsistencies can occur and such compliance claims may not always be able to be validated. Ultimately this may put the glove wearer at risk.

Force360 source their entire WORX gloves from a single manufacturing partner to ensure consistency and reliability of product. Force360 have recognized the weakness of compliance claims and have engaged **SAI Global** to certify their products and manufacturing facilities for complete peace of mind.

Force360 WORX gloves are certified by **SAI Global** to Australian Standards AS/NZS 2161.3:2005(EN388) Mechanical Performance. Mechanical risk is the risk caused by abrasion, blade cut, tear and puncture to the wearer of the glove. A tested item is given a performance rating of 1 to 4 (lowest to highest) on some or all of the listed categories. The 'blade cut resistance' test is an exception as it measures from 1 to 5.

For **Certified Australian Standard** protection, only wear gloves with the Red Tick Tower.

USES

- ▶ DIY
- ▶ Construction and mining
- ▶ Finishing and inspection
- ▶ Gardening
- ▶ Handling of small components
- ▶ Maintenance
- ▶ Logistics and warehousing
- ▶ Using tools and instruments
- ▶ Wiring operations
