

FillEasiTM

void-filling system

- ◆ **Speedy**
production rate at 1.4m/sec.
- ◆ **3D crumple**
our patented crumpling technology transforms 1-ply kraft paper into a 3D crumpled packaging material for effective void-filling applications.
- ◆ **Cost Control**
with our patented paper length selector, paper usage is easy to control.
- ◆ **Flexibility**
adapts to any warehouse environment, as a floor stand or table unit.
- ◆ **Adaptability**
operates by electrical outlet or battery.
- ◆ **Quiet**
double wall housing, quiet in operation.
- ◆ **User Friendly**
simple and easy to operated.
